¹ Any indivisible object weighing 50 tons or more and which can only be handled as a whole, that is, in one go. Cargo dues for a unit package greater than or equal to 50 t is equal to its weight multiplied by the rate (in euros per tonne) of the category to which it belongs. Thus, cargo dues for a package weighing 75 tonnes will be worth 75* 2.2932 = €171.99.

^{**} In accordance with the provisions laid down in Article R. 5321-31 of the Code of Transport.

ARTICLE 8: Conditions for payment of dues in the table of Article 7

- 8.1 For each declaration, the dues set out in Table 1 of Article 7 of this tariff shall be levied on the total weight of the cargo belonging to the same category.
 - a) They are paid:
 - By the tonne, when the weight is greater than 900 kg;
 - By the quintal, when this weight is equal to or less than 900 kg.

Any fraction of a tonne or guintal is counted as one unit.

The payment of dues by the quintal is equal to one tenth of the payment of dues per tonne.

- b) Subject to exemptions applicable to frames, containers and pallet boxes, packaging shall, in principle, be charged at the same rate as the merchandise contained therein. However, where a declaration relates to merchandise belonging to more than one category, all packaging is automatically classified in the dominant category by weight.
- 8.2 Declarations must indicate the total gross weight and taxable weight per category for cargo subject to dues by gross weight, and must indicate a number for goods, vehicles or containers subject to dues by unit.
 - In support of each declaration for goods belonging to more than one category, the declaring party must attach a summary slip showing the weight or number per declared item and per category. This slip must be dated and signed by the declaring party.
- 8.3 If all goods are subject to the same declaration by weight, the declaring party may request that they be subject as a whole to the rate applicable to the highest part. In that case, no summary slip is required; the declaration must simply mention the overall weight of all declared goods.

The absence of a summary slip is tantamount to the declaring party's acceptance of the simplified payment; no subsequent request for revision on the basis of the charge by category will be accepted.

- 8.4 In accordance with the provisions of Article R. 5321-51 of the Code of Transport:
 - The minimum charge is set at €5.62 € per declaration.
 - The threshold charge is set at €5.62 € per declaration.
- 8.5 Cargo dues are not payable in the cases listed in Article R.5321-33 of the Code of Transport. This includes products delivered for refuelling, rigging or fitting-out of ships as well as miscellaneous items belonging to the crews.

SECTION V

SHIP-GENERATED WASTE DUES

ARTICLE 11:

11.1 In the port of Caen-Ouistreham, dues are levied on all commercial vessels, fishing vessels and pleasure craft for ship-generated waste as defined in Article L. 5334-7 of the French Transport Code.

For pleasure and watersports craft, the ship-generated waste dues stipulated in Article R. 5321-1 of the Transport Code are only levied when the costs of receiving and disposing of the waste from these ships are not already covered by another charge or fee.

These dues are payable by the shipowner or, in the case of pleasure craft, by its proprietor or skipper. They are calculated either on the volume V of the ship, expressed as indicated in Article R. 5321-20 of the Transport Code, or on a flat-rate basis according to the following terms: €0.016 per m³.

11.2 When ship-generated waste is delivered in accordance with the provisions of the Port of Caen-Ouistreham waste collection and processing plan, the service provider(s) performing the waste collection service mentioned in Article R. 5334-5 of the Transport Code issue a waste delivery receipt to the ship's captain or to the captain's representative. Before the ship leaves the port or as soon as the receipt is received electronically, the captain or the captain's representative transmits the information on the receipt to the authority responsible for port policing.

Dues are payable on each port call irrespective of whether the ship delivers its waste or not. These so-called indirect dues cover the indirect administrative costs and all or part of the direct operating costs for at least 30% of the total annual direct costs corresponding to the actual delivery of waste in the previous year; taking into account the costs related to the predicted volume of traffic for the coming year is possible.

Depending on the delivery receipts transmitted, case a or b below applies to the ship. The port authority informs the customs service, as applicable.

a. If the ship has not transmitted a waste delivery receipt: where the shipowner or its representative has not provided a waste delivery receipt, waste dues are levied in accordance with Article L. 5321-3 of the Transport Code.

b. If the ship has transmitted a waste delivery receipt: where the shipowner or its representative has provided a waste delivery receipt, and where the service has been provided by the port, waste dues are payable to the bodies mentioned in Article R. 5321-16 of the Transport Code. These bodies reimburse the collector for the costs covered by the dues relating to the collection and disposal of the waste. Direct operating costs not included in the dues, and which would have been billed directly by the collector to the ship, are not concerned. Where the shipowner or its representative has provided a waste delivery receipt, and where the collection service has been performed by an outside service provider who has billed the ship directly for the service, dues may be paid back to the ship on leaving the port to avoid duplicate billing. In some cases, a sum corresponding to the port's administrative costs may be deducted. These terms may be specified in the waste collection and processing plan of the port concerned and are determined by the port authority with the consent of the customs service.

11.3 Reduced and differentiated dues Not applicable.

11.4 Increased dues

The schedule of port charges may provide for a 10% increase in waste dues where ships fail to comply with the waste delivery procedure according to the provisions of Article L. 5336-1-4 of the Transport Code.

- 11.5 The ship-generated waste dues, defined in section I above, do not apply to the following:
- engaged in assistance to ships, especially for pilotage, towing, mooring and rescue work.
- ships engaged in waste recovery and pollution control.
- ships engaged in maintenance dredging, maritime signalling, fire-fighting operations and administrative services;
- ships making a forced call not engaging in any commercial operations.
- ships with no access to port facilities, forced to perform their unloading, loading or transshipment operations outside the port.
- warships and ships operated by the State for non-commercial purposes.
- ships undergoing repair.

11.6 In application of the provisions of Article R. 5321-51 of the Code of Transport:

- The minimum charge is set at €10.50
- The threshold charge is set at €5.25

11.7 Exemption from dues as provided for in Article R.5321-39-V of the Code of Transport (optional provision): Ships making regular and frequent calls, according to a prearranged itinerary and schedule, not delivering their operational waste in the port, are exempt from dues, if the ship's captain can demonstrate that they hold either a delivery certificate or a contract for the delivery of the ship's operational waste and provide proof of payment of relevant dues, such certificate or contract having been drawn up in a port of a Member State of the European Union located along the ship's effective route. This certificate must be validated by the port authorities of that port.

The beneficiary of port dues shall provide a list of exempt ships to the customs administration.

ARTICLE 12: This tariff enters into force under the conditions set out in Article R.5321-14 of the Code of Transport.
